PECH Group Holdings Ltd

Executive Summary — ₦250M Capital Deployment Plan

Prepared by: PECH Group Holdings Ltd **Date:** March 2026 **Secured Capital:** ₦250,000,000 (Two Hundred and Fifty Million Naira) **Deployment Period:** 24 Months (March 2026 — February 2028) **Confidentiality:** This document is strictly confidential

Our Mission

PECH is a **technology and infrastructure enabler for people**. We build the digital backbone that African businesses, homes, and communities run on.

Every product we ship represents **reliability, quality, and good price for your money**. We sell high-end products AND equally good affordable products, but **never bad products**. Quality is our brand promise.

All PECH products are **designed for Africa** — wide voltage tolerance, heat resistance, dust/water protection, offline capability — and **progressively integrated across our entire ecosystem**: IoT platform, ERP, Marketplace, Logistics, and Payments.

The Company

PECH Group Holdings Ltd is building **Africa's first vertically-integrated Commerce & Infrastructure Operating System** — combining:

- **Embedded ERP** — Free business management for SMEs
- **IoT & Smart Systems** — Energy, security, estate management platform
- **Smart Water Controllers** — 4-tier water level controllers (Basic → Industrial/SCADA)
- **Smart Home & Electrical** — Switches, sockets, cameras (smart + non-smart)
- **Learning Tablets & EdTech** — Content deployment with open API for creators
- **Marketplace** — Digital twin of Nigeria's physical wholesale markets
- **Spoke-and-Hub Logistics** — Cainiao-inspired parcel management
- **Payments Infrastructure** — PSSP/PTSP payment processing
- **Energy Storage Systems** — Battery backups for IoT and homes
- **Advertising & LED Displays** — Digital signage infrastructure (Phase 2)
- **Self-Service Kiosks** — Multi-purpose payment/info terminals

Secured Capital

₦250,000,000 committed capital for the first 24 months. The investor will inject additional capital as the business gains traction.

PECH Ecosystem

Budget Allocation

Budget Allocation

Category	Amount (₦)	% of Total
Hardware Procurement (25 SKUs from China)	**₦75,000,000**	**30.0%**
Human Capital (Salaries & Contractors)	₦70,000,000	28.0%

Technology Infrastructure & AI Tools	₦28,000,000	11.2%
Office, Equipment & Operations	₦20,000,000	8.0%
Contingency & Emergency Reserve	₦18,000,000	7.2%
Marketing & Customer Acquisition	₦15,000,000	6.0%
Logistics Platform (Stations Setup)	₦12,000,000	4.8%
Licensing, Legal & Compliance	₦12,000,000	4.8%
TOTAL	**₦250,000,000**	**100%**

Hardware Portfolio

Hardware Portfolio (25 SKUs)

Category	Products	Price Range (₦)
Commerce	**Smart POS, POS Tablet, Self-Service Kiosk, Barcode/Receipt Kit, Logistics Scanner**	**₦40K-₦480K**
	Energy Controller, Smart	

IoT & Energy	Meter, Power Kit, Mini UPS, Home Battery	₦18K–₦240K
Water Controllers	Tier 1 Basic, Tier 2 Mid-Range, Tier 3 Smart IoT, Tier 4 Industrial/SCADA	₦22K–₦175K
Smart Home	Smart Switch, Smart Socket, Smart Camera, IP Camera, Premium Switch/Socket	₦2.8K–₦58K
Education & Display	Learning Tablet, Indoor LED Panel, Outdoor LED Screen	₦110K–₦250K
Solar Products	Solar Street Light, Solar Rechargeable Fan	₦45K–₦200K

Phase Roadmap

24-Month Execution Roadmap

Phase	Months	Focus	Budget (₦)
Phase 1: Foundation	**0–3**	**Core team (5 people), architecture, first hardware order, legal setup**	**₦55,000,000**
Phase 2: MVP & Pilot	4–6	50 merchants, 30 IoT devices, 2 logistics stations, smart home + solar products launch	₦52,000,000
		500 merchants, 3	

Phase 3: Market Entry	7–9	markets, water controllers launch, marketing campaigns	₦55,000,000
Phase 4: Revenue Scale	10–12	1,500 merchants, 300 devices, credit scoring prototype	₦45,000,000
Phase 5: Ecosystem Maturity	13–18	3,000 merchants, 800 devices, API launch, LED displays, PSSP license application	₦33,000,000
Phase 6: Growth & Expansion	19–24	5,000 merchants, 1,500 devices, West Africa expansion	₦10,000,000 (revenue-funded)

Key Targets (24 Months)

Metric	Month 6	Month 12	Month 18	Month 24
Active Merchants (ERP)	**200**	**1,500**	**3,000**	**5,000**
IoT Devices Deployed	50	300	800	1,500
Markets Digitized	1	3	5	8
Monthly Revenue (₦)	1.5M	10.2M	16.4M	21.3M
Team Size	9	18	25	30

24-Month Cumulative Revenue: ₦243.6M | **Break-even:** Month 16–18

Team Growth (Lean)

Phase	People	Monthly Payroll (₦)	Key Hires
Phase 1 (Mo 0-3)	**5**	**₦1,950,000**	**CTO, 2 engineers, market ops**
Phase 2 (Mo 4–6)	9	₦3,060,000	IoT engineer, DevOps, 2 agents
Phase 3 (Mo 7–9)	13	₦4,310,000	Payments PM, data analyst, 2 support
Phase 4 (Mo 10–12)	18	₦5,320,000	Logistics lead, 2 jr engineers, 2 agents
Phase 5 (Mo 13–18)	22–25	₦6,690,000	Data engineer, BD lead, field coordinator
Phase 6 (Mo 19–24)	25–30	₦7,950,000	PSSP compliance, 2 engineers, 2 agents

Payment & Wallet Licenses — Strategy

License	Capital Required	Escrow Duration	Priority
PSSP (Payments)	**~₦205M (₦100M capital + ₦100M escrow + fees)**	**Life of license (refundable on surrender)**	**HIGH — GET ASAP (Month 9+ from business traction)**
PTSP (POS Terminals)	~₦201M (₦100M capital + ₦100M escrow + fees)	**Life of license** (refundable on surrender)	When volume justifies
MMO (Wallets & Escrow)	~₦4B (₦2B capital + ₦2B escrow + fees)	**Life of license** (refundable on surrender)	Future — when justified

Strategy: - **Now:** Partner with Paystack/Flutterwave for payments + partner PTSP + partner bank - **PRIORITY:** Apply for PSSP after Month 9 when hardware sales and software revenue justify capital deployment - **Future:** Own MMO license when transaction volume justifies the ₦4B capital requirement

> A PSSP license does NOT permit holding customer funds or issuing wallets — that requires an MMO license. PECH will use a white-label MMO partnership until own license is justified.

Equity Structure

Stakeholder	Allocation	Notes
Founder(s)	**55-60%**	**Controlling stake, hardware + vision**
ESOP Pool	10–12%	CTO, key hires (4-year vesting)
Seed/Angel Investors	15–20%	This round
Strategic Reserve	10–15%	Future rounds, partnerships

Competitive Edge

Advantage	Description
Ecosystem Lock-In	**Free ERP + hardware creates daily dependency**
Designed for Africa	140–280V tolerance, offline-first, heat/dust resistant
Quality Promise	Reliability + good price for money — no bad products
Data Moat	Transaction + energy + logistics data enables credit scoring
Founder Advantage	Direct China sourcing (Shenzhen)
23 Hardware SKUs	Widest African-optimized product range
