PECH GROUP HOLDINGS LTD

Technology & Infrastructure Enablers for Africa

PECH Group Holdings Ltd

Executive Summary — ₦250M Capital Deployment Plan

Our Mission

PECH is a **technology and infrastructure enabler for people**. We build the digital backbone that African businesses, homes, and communities run on.

Every product we ship represents **reliability, quality, and good price for your money**. We sell high-end products AND equally good affordable products, but **never bad products**. Quality is our brand promise.

All PECH products are **designed for Africa** — wide voltage tolerance, heat resistance, dust/water protection, offline capability — and **progressively integrated across our entire ecosystem**: IoT platform, ERP, Marketplace, Logistics, and Payments.

The Company

PECH Group Holdings Ltd is building **Africa's first vertically-integrated Commerce & Infrastructure Operating System** — combining:

- **Embedded ERP** — Free business management for SMEs
- **IoT & Smart Systems** — Energy, security, estate management platform
- **Smart Water Controllers** — 4-tier water level controllers (Basic → Industrial/SCADA)
- **Smart Home & Electrical** — Switches, sockets, cameras (smart + non-smart)
- **Learning Tablets & EdTech** — Content deployment with open API for creators
- **Marketplace** — Digital twin of Nigeria's physical wholesale markets
- **Spoke-and-Hub Logistics** — Cainiao-inspired parcel management
- **Payments Infrastructure** — PSSP/PTSP payment processing
- **Energy Storage Systems** — Battery backups for IoT and homes
- **Advertising & LED Displays** — Digital signage infrastructure (Phase 2)
- **Self-Service Kiosks** — Multi-purpose payment/info terminals

Payment & Wallet Licenses — Strategy

License	Capital Required	Escrow Duration	Priority
PSSP (Payments)	~₦205M (₦100M capital + ₦100M escrow + fees)	**Life of license** (refundable on surrender)	**HIGH — GET ASAP** (Month 9+ from business traction)
PTSP (POS Terminals)	~₦201M (₦100M capital + ₦100M escrow + fees)	**Life of license** (refundable on surrender)	When volume justifies
MMO (Wallets & Escrow)	~₦4B (₦2B capital + ₦2B escrow + fees)	**Life of license** (refundable on surrender)	Future — when justified

Strategy: - **Now:** Partner with Paystack/Flutterwave for payments + partner PTSP + partner bank - **PRIORITY:** Apply for PSSP after Month 9 when hardware sales and software revenue justify capital deployment - **Future:** Own MMO license when transaction volume justifies the ₦4B capital requirement

> A PSSP license does NOT permit holding customer funds or issuing wallets — that requires an MMO license. PECH will use a white-label MMO partnership until own license is justified.

Equity Structure

Stakeholder	Allocation	Notes
Founder(s)	55–60%	Controlling stake, hardware + vision
ESOP Pool	10–12%	CTO, key hires (4-year vesting)
