Payment & Wallet Licenses — Strategy

License	Capital Required	Escrow Duration	Priority
PSSP (Payments)	~₦205M (₦100M capital + ₦100M escrow + fees)	**Life of license** (refundable on surrender)	**HIGH — GET ASAP** (Month 9+ from business traction)
PTSP (POS Terminals)	~₦201M (₦100M capital + ₦100M escrow + fees)	**Life of license** (refundable on surrender)	When volume justifies
MMO (Wallets & Escrow)	~₦4B (₦2B capital + ₦2B escrow + fees)	**Life of license** (refundable on surrender)	Future — when justified

Strategy: - **Now:** Partner with Paystack/Flutterwave for payments + partner PTSP + partner bank - **PRIORITY:** Apply for PSSP after Month 9 when hardware sales and software revenue justify capital deployment - **Future:** Own MMO license when transaction volume justifies the ₦4B capital requirement

> A PSSP license does NOT permit holding customer funds or issuing wallets — that requires an MMO license. PECH will use a white-label MMO partnership until own license is justified.
